

THANK YOU FOR TODAY

Hello Father,

It's your child in front of you

My Heart listens to you

My mind is focused on you

Am so glad that I have you

For this precious time I thank you.

You're the peace that I need

The song that I sing

The bread that I eat

The provider for my needs.

You send your angels before me

You lead and direct me

Nothing you can't do for me

You even gave your son to die for me.

Thank you father for this day

As I start forth my day

Please show me the way

Help me today, to do well and obey.
